- **TYRA MAIL** +

FINAL SHOW GAME OBJECTIVE
A win is obtained by correctly determining which model will be America's Next Top Model. This can be achieved in two ways: 1) by correctly marking which model will win; 2) the model with the *highest* Rating Bar score on your card at the end of the show wins.

BEFORE THE SHOW (DRINKING RULES IN RED)

- Assign each model a positive or negative point by filling in a white bar on the Ratings Bar. The yellow bar is neutral and not counted.
- Choose who you think will lose and be eliminated first, resulting in the final two contestants. Mark the "C" box for your candidate. If your chosen model wins the Challenge, you have one extra point to *immediately* assign to one of the remaining models.
- Choose who you think will be WIN by marking the "W" box for your candidate. If your chosen model is the last girl standing, you win!
- Choose if the model opening Tyra Mail will get one positive or one negative point by marking the appropriate box of the Tyra Mail bar. Whomever is holding the Tyra Mail card and reading it receives one point, positive or negative, according to which you've marked.
Everytime Tyra Mail is read, drink.

DURING THE SHOW

- After photos from photoshoot have been shown during Panel (approx 45 mins into the show), there will be a commercial break. During this break, you have one extra point to assign as you see fit. (This is your last chance push for your favorite.)
- If Panel references and shows a clip of a previous Cycle model while discussing a current Cycle model, the current Cycle model is awarded a positive or negative point, depending on how favorable/not favorable the reference is.
- If a model cries about hair or makeup, or cries about missing a family member/significant other, she gets one negative point & *drink*.
- If Tyra addresses a model as "Girl", "Girlfriend", "Sister" or "Miss Thing", she gets one positive point & *drink*.
- If Tyra talks about her booty, all models positive one point & *drink*.
- If model gets sent to the hospital, she gets negative one point.
- If model misses photoshoot, she gets negative one point.
- If model gets a high-five, hug or any form of physical affection from Miss J, she gets positive two points.
- Anytime anyone says any derivative of the word "fierce", drink.*

During Panel elimination, total your points to see how closely your choices (and a bit of luck) are in line with the Panel's decisions. Did they pick your Next Top Model? Congratulations! Did they pick someone else? Maybe you need some private training with Miss J. Thanks to everyone for downloading and playing!
